## WORK EXPERIENCE

- Developed responsive and dynamic full stack applications using **MongoDB, Express.js, React.js, and Node.js (MERN)**.
- Built reusable components and managed complex UI states using **React, React Router**, and **Redux Toolkit**.
- Created secure REST APIs with **Express.js**, integrated with **MongoDB Atlas**, and handled data models with **Mongoose**.
- Implemented role-based user authentication and authorization using **JWT**, with protected routes and session management.
- Designed clean, mobile-friendly UIs using **Tailwind CSS**, and handled forms efficiently using **Formik** and **Yup** for validation.
- Tested APIs with **Postman and Insomnia**, managed code using **Git & GitHub**, and followed Agile workflow with task tracking.
- Implemented real-time communication features using **Socket.io** for chat, notifications, and live updates across client and server.
